**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 5, 7-9, 11, 13-16, 18, 20, drawn to a method of forming a dielectric film comprising diamond particles and pores comprising a metal.

Group II, claim(s) 3-5, 9, 11, 15, and 18, drawn to a method of treating a dielectric film comprising diamond particles and pores with an aqueous solution of a metal-salt.

Group III, claim(s) 6, drawn to a dielectric film comprising diamond particles and pores with a surface group which is more hydrophobic than a hydroxyl group.

Group IV, claim(s) 10, drawn to a method of forming a dielectric film comprising diamond particles and pores with a hydrophobic agent.

Group V, claim(s) 12, drawn to a method of treating a dielectric film comprising diamond particles and pores with various substances.

Group VI, claim(s) 17, drawn to a method of treating a dielectric film comprising diamond particles and pores with a C6 alkoxy or phenoxy group.

Group VII, claim(s) 19, drawn to a method of treating a dielectric film comprising diamond particles and pores with a mixture of various substances.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The only corresponding technical feature among all the groups I-VII is forming or treating a dielectric film comprising diamond particles and pores. However, this feature is known. Therefore, there is no special technical feature among all the groups I-VII.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
